Cut Off Wheel

Application: Quickie cut reinforced cut-off wheel.

Description: Rigid wheel design for fast cutting and longer life.

Suitable For: Recommended for ferrous metals: angle iron, iron/steel bar, metal decking & cable, pipe line, stainless steel sheets, stainless steel bars. May be used for high tensile steel & non-ferrous metals: aluminum alloys, copper, brass, bronze, titanium

Grinding Disc

Application: Soft N-grade bond for fast stock removal.

Description: Excellent ratio of stock removal/wheel loss.

Comments: For working on flat grinding surfaces. Most efficient when used between 0°–15° angle. The best choice for smooth finishing.

Suitable For: Metal and low-grade stainless steel.

Hook & Loop

3M™ Hook and Loop Disc Pad Holder is designed for metalworking projects and LGB discs. The disc pad holder provides firm support so that heavy-duty and super-duty LGB discs can weld grind and blend with faster and more efficient productivity. 3M™ Disc Pad Holders allow you to quickly and easily change abrasive discs during multi-step projects.

- Hook and loop attachment system offers quick change of abrasive discs for multi-step processing
- Use with rotary sanders, right angle grinders and disc sanders
- Options available for right angle grinders and random orbital sanders
- Extra hard disc provides firm support
- Disc pad holder operates at a maximum 8500 RPM

Hook & Loop

A good starting point for many different light-duty applications, our Standard Abrasives™ Buff and Blend Hook and Loop GP Disc is a versatile non-woven abrasive disc designed to lightly blend, clean, deburr and finish a variety of metals. We added a hook and loop style backing for use with a hook and loop holder pad (sold separately) on a random orbital sander.

- Moderately aggressive material offers great versatility and may be used for a variety of light-duty industrial applications, including light oxidation removal, blending of minor surface imperfections, surface cleaning prior to coatings, removal of small burrs, and basic equipment cleanup
- Designed for less aggressive use compared with HP material in the Standard Abrasives™ Buff and Blend line
- Hook and loop style attachment for random orbital sanding systems
- Multi-purpose abrasive discs work well on most metals
- Tough, pliable nylon web cleans and deburrs while leaving a professional finish
- Open web is load resistant, limiting buildup of debris that can clog the abrasive
- Available in medium (MED) and very fine (VFN) grade aluminum oxide mineral

DECAL PAINT STRIPPER - PER CAN

SP-DCL-STRP

Crown® Tuff-Strip® Heavy-Duty Sprayable Stripper

Crown® Tuff-Strip Aerosol combines our ultimate-strength paint stripper with the convenience of a sprayable product. With its special extra-strength formula, it quickly and easily cuts through multiple-layers of finishes such as latex and oil-based paints, varnishes, polyurethane and epoxy. Excellent for both indoor and outdoor applications.

Stanley 11-515 1-1/2-Inch Single Edge Razor Blades (100-Pack)

- Steel backed high carbon steel blade fits all standard razor blade tools
- Stanley - Black & Decker
- Limited Lifetime Warranty
- Replacement blades for Stanley® 28-100 and 28-500 scrapers

ANTI-SEIZE JET LUBE 550 FOR FASTENERS - PER

SP-LBR-JT55

550® Molybdenum Disulphide Anti-Seize Compound

550 contains carefully balanced proportions of molybdenum disulphide (MoS₂), graphite, and low friction fillers in an aluminum complex base grease that is fortified with effective rust and corrosion inhibitors. 550 assures protection against rust, oxidation and corrosion. It will not harden, evaporate, or settle out; and it requires no thinning. 550 is the ideal product for petrochemical plants' maintenance needs.

Certifications: Mil Spec - MIL-PRF-907E

Applications: Threads, Flange Faces, Keyways, Gaskets. Slides, Guides and Fittings

NOTE: Not for use with oxygen lines.

Molykote® 111 Valve Lubricant & Sealant

Primary Use – General purpose O-ring and valve lubricant.

Special Characteristics – Provides a noncuring moisture barrier; high dielectric strength; moisture and ozone resistance; good thermal, oxidation and chemical stability; suitable for use with potable water under NSF 61.

Physical Form – Heavy-consistency, translucent white, grease-like silicone paste.

Applications – Lubricating plug, sanitary, gate, ball, butterfly and automated valves, pump packings, rubber and plastic O-rings; sealing vacuum and pressure systems (especially equipment subjected to washing and harsh environments); damping medium for dash pots in electrical equipment.

MOLYKOTE LUBRICANT

SP-LBR-MLYK

Lubricants

PB BLASTER

PB B'LASTER PENETRANT

The #1-selling penetrant since 1957, PB B'laster quickly busts loose rusted or frozen parts caused by rust and corrosion. It also contains a non-evaporating lubricant that saves time and equipment and protects against further rust and corrosion.

Features

- #1-Selling Penetrant
- Breaks Free Rusted or Frozen Parts
- Protects Against Further Rust and Corrosion
- Use on Automotive, Industrial, Marine, Plumbing & Other Equipment.

PBX-BLST

CRC BRAKLEEN® BRAKE PARTS CLEANER

The original brake parts cleaner

- Formulated to quickly & effectively remove grease, brake dust, brake fluids, oils, & other contaminants from brake parts, lining, pads
- Cannot be sold for use in CA or NJ
- Non-flammable
- This item is not for sale in Catalina Island.

BRAKE CLEANER (19 OZ)

Primers

COLD GALVANIZING PRIMER SPRAY

SP-PRM-SGLV

Zinc-It® Instant Cold Galvanize

High-performance coating of >93% pure zinc that electrochemically bonds with ferrous metals to form a galvanic cell. It actively fights rust and corrosion. Use as a touch-up for damaged galvanized coatings. Dries quickly. Outdoor protection: 1 - 2 years.

Applications:

On threads, exposed edges, fasteners, conduit, strapping, welds, fencing, railings, grates, electrical poles, breaker panel housings, rain spouts, signs, doors, trailers, waste containers, catwalks, and guard rails.

Rust-Oleum® Filler Primer

Rust-Oleum® Filler Primer is a hi-build formula that fills in minor imperfections in the surface and improves top coat adhesion and appearance. For use on metal, wood and fiberglass surfaces.

Hi-build formula

Fills in imperfections

Stops Rust formula

Any-Angle Spray with Comfort Tip

GRAY PRIMER SPRAY

SP-PRM-SGRY

Pipe Sealants

PLS-2 PIPE THREAD SEALANT

PLS® 2 Premium Thread & Gasket Sealer

Lead-free, non-hardening, non-toxic, opaque gray paste.

Adheres readily to iron, stainless steel, aluminum, monel, plastics and synthetic rubber compounds.

For use with dilute acids, aliphatic solvents, ammonia, dilute caustic alkali, diesel fuel, gasoline, kerosene, jet fuel, LPG, natural gas, petroleum solvents, heating oils, butane, hydraulic oils, mineral oils, refrigerants and steam.

SP-SLT-PLS2

PTFE LIQUID PIPE THREAD SEALANT

S'MOOTH™ Thread Sealant w/ PTFE

S'MOOTH™ is a general-purpose metal pipe thread sealant for industrial and residential use. This white paste has a smooth consistency and no grit.

Applications: Pipe thread sealant for 1/2" to 2" NPT metal piping. For systems carrying potable water, steam, compressed air, natural gas, sprinkler systems, gasoline, diesel fuel, kerosene, heating oil, propane, anti-freeze solutions, refrigeration gases, dilute acids, caustics, and many other common chemicals. Use for repair and maintenance in many industries including marine, automotive, plumbing, pool and spa, food service, agricultural, institutional, municipal, and utilities.

SP-SLT-TFWP

PTFE Tape

POLY-TEMP® Low Density PTFE thread seal tape

More economically suited for some markets, Low Density PTFE thread seal tape compliments our line of premium Poly-Temp® tapes. Still made with virgin PTFE (Polytetrafluoroethylene), this tape remains flexible, is a thread sealant for all services, chemically inert, non-hardening, and withstands temperature ranges between -400° to 500°F (-240° to 260°C). It is compatible with all pipe materials without exception, forms a permanent seal for the life of the connection, and is recommended for all pipe sizes (larger thread sizes require more wraps). Meets MIL-T-27730A Poly-Temp® Thread Seal Tapes are 100% PTFE from the highest quality resins available. This universal thread sealant can be used on all types of metal or plastic pipe connections and effectively seal a vast array of chemicals.

INERTEX® UHF MAX TAPE High Density PTFE Tread Seal Tape

100% expanded virgin PTFE • FDA suitable (FDA 21 CFR 177.1550)
